#### Bareback Gowns.

A lady in a decolette gown berated the bolsheviks at a dinner in Washington.

"Why," she cried, "the latest news from Russia is that these curs are selling the very clothes off the women's backs!"

Senator Johnson of California looked around the table with a smile. All of the ladies' gowns were decolette; in the back this decolette was especially marked.

"The bolsheviks," he said "wouldn't find much to sell at a fashionable American dinner party, would they?"

British scientists have detected traces of light more than 300 feet under water.

## Don't Belittle That Backache—Stop It.

Kidney and Bladder Sufferers Regretfully Recall Their Neglect of First Symptom. Use Caution—Get Dodd's.

If kidney disease attacked suddenly as does Appendicitis, or a Fever, you would be forced to bed immediately. But it doesn't—its process is slow, destructive and fatal.

You can't afford to disobey nature's first warnings—slightest backache, throbbing pain through loins, stiffness in stooping or lifting. Take heed immediately, and beware, too, of spots appearing before or puffiness under the eyes, rheumatic pains, nightly arising.

Thousands upon thousands have been relieved in the past 40 years by using Dodd's—they quickly tone and revive sickly kidneys. Be sure your druggist gives you Dodd's—flat, round box, with three D's in the name.

If your druggist is sold out, send 60c in stamp with druggist's name to Dodd's Medicine Co., Buffalo, N. Y.

#### You Do More Work.

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of GROVE'S TASTELESS CHILL TONIC has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS CHILL TONIC when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

# Plan to Reclaim Disabled Yanks

Federal Board Estimates That 50,000 Will Have to Be Fitted for Vocations

7,356 ALREADY IN TRAINING

Government Works on Four Year Program, but Funds Are Needed to Complete Plans—Board Reviews 1,000 Cases a Day.

Washington.—Working to overcome the handicaps of men injured in the war the federal government is striving to place the vocationally disabled soldier back in the economic ranks of the country, able to compete with other "whole" men and to earn an independent income for himself. According to information just made public by the federal board for vocational education it is likely that as many as 50,000 men who served in the war will have to be re-educated, either vocationally or occupationally.

Under this plan the federal board is now working on what is practically a four-year program, although appropriations so far have been made only up to July, 1920. In another month, it is estimated, 17,000 men will be approved to go into immediate training with the opening for the fall terms of the professional and technical schools of the country. The 40,000 or 50,000 men disabled in the service of the country will all be placed in training for various lines of activity and nearly all of them will have completed rehabilitation by the summer of 1923. By far the majority of the men to be rehabilitated will have finished their retraining, it is expected, within a year or two years, some of them in less than six months, and will be back on their feet in that time in professional and industrial ranks.

#### May Extend Work.

So far no provision has been made by Congress for rehabilitating men whose disabilities do not amount to a vocational or occupational handicap. It is said by those best informed on reconstruction legislation that congress may yet be asked to provide some means of compensatory training, as well as the compensation already paid through the war risk bureau to men who have simply suffered physical disabilities without economic loss to them, in their country's service. To carry out such a program, it is estimated that the federal government would have to expend upwards of half a billion dollars.

Up to the present time the vocational education board has got in touch with some 153,000 men and has actually surveyed and interviewed 110,135 soldiers, sailors and marines injured in service during the war. The majority of these will not be able to obtain retraining under the act of congress as it now stands, even with recent amendments.

All of the men more than 10 per cent disabled will receive money compensation to the extent to which they

are disabled, but only those whose disabilities mean a handicap to them in the occupation or vocation they followed or in ordinary lines of work can be retrained and fitted for a new trade or profession. Of those already interviewed 14,876 have been approved for training, and 7,356 of these have actually been placed in training. Several thousand additional men will have been approved by October.

According to recent figures reported to the bureau of war risk insurance by the army, 149,433 men have been discharged from service with a disability.

"Only cases showing 10 per cent disability have been reported," the report states. "At this rate it seems probable that the total number of cases of disability resulting from the war and entitled to (monetary) compensation will be close to 200,000."

\$350,000,000 Needed.

A central case board has been established in Washington to finally approve all cases sent in by the distant boards. This system, it is explained, is necessary because the board is operating under a budget system of expense from congress. This board reviews an average of 1,000 cases a day. The majority of these have to be rejected, though, if a more liberal law should be passed by congress in the future these cases would be reopened and it is supposed the majority of them would then be approved. The documents and evidence in each case are carefully preserved so that the expense of obtaining them again will be minimized.

Should a more liberal law be passed

## See Ship Which Routed Foe Subs

Thousands Pay to Get View of Great Britain's Mystery Craft.

DEVELOPS 23-KNOT SPEED

First of the "Hush" Craft the British Public Has Been Permitted to See at Close Range—Doughboys Inspect Ship.

London.—Thousands of persons waited for hours to get a close-up peep at the P-31, a British antisubmarine "mystery" ship, which was moored off Queen Victoria embankment for a two days' public inspection at the close of the official peace celebrations. The P-31 was the first of the "hush" craft the public was permitted to see at close range.

It was only ten yards from the embankment to the quaint looking U-boat fighter, but the intervening distance had to be made in small boats. These each carried eight passengers, and the fare was one shilling, so the water-

men's pockets soon were bulging, but there was no complaint about "profiteering."

#### Cops Give Hermit His Annual Shave and Bath

Dallas, Tex.—John May, aged hermit who lives in a dilapidated shack in the river bottoms here, has been given his annual haircut, shave and bath. The police did the tonsorial act and also administered the scrubbing. It took several of the cops to do it, for John is a strong man and put up a determined struggle throughout the performance. He went to the police station with grizzled hair and beard, which reached almost to his waist. He came away with a smooth face and head and smelling like high-priced toilet water.

John got his first haircut, shave and bath in twenty years last year when the cops ran him in and trimmed him up.

#### Gas Masks for Painters.

Wilmington, Del.—To avoid turpentine "jags" shipyard painters working down in ship holds have been supplied with gas masks.

men's pockets soon were bulging, but there was no complaint about "profiteering."

#### Doughboys Inspect Ship.

Among the curious who swarmed over the vessel were a number of American soldiers. Some of them took a peculiar interest in the guides' explanations and comment on the boat's "trick" fittings—her geared turbines, gadgets, depth-charge throwers and paravanes.

It recalled to them a night of peril through which they passed from Southampton or Winchester across the submarine and mine-infested English channel, en route to Havre or some other French port—and the war. That night of fearful expectancy passed safely, they had marvelled at the efficiency of the conveying craft which they knew had been off in the darkness somewhere, plowing through rolling breakers, eager for an encounter—with its frequent aftermath of "oil and bubbles" from a vanquished undersea boat.

But as these doughboy spectators heard a member of the crew of the "hush" ship say: "She does everything but loop-the-loop," and saw others demonstrate parts of the ship's fighting equipment hitherto kept secret, they understood why they had been so secure.

#### Twenty-three-Knot Speed.

The "P-31" is 244 feet long, with narrow beam, seven-foot draft and equipped with independent engines, fore and aft, that can speed her through heavy seas at 23 knots an hour. Built high forward and low at the stern, the vessel has somewhat the appearance of a submarine—an effect that her designers intended.

"Fritz sometimes would think" she was a "sub" and would open fire on her—but when she slowed around in her own length and got into action Heine was sorry he had spoken," said a sailor who had been through eight engagements on the fighter.

There had been other brushes with enemy craft, he explained, adding, "but unless you can bring home a bit of the corpse, the admiralty say, 'not proven.' It's no use to tell them about the 'oil and bubbles,' they're too proof, because Fritz used to release oil and bubbles to make us waste ammunition."

THE FLAVOR LASTS SO DOES THE PRICE!

She Needn't Wait. Mother was putting Max to bed. "Now Max," said mother, "come let me hear your prayers, or you won't get to Heaven with mother."

Max, rolling over, answered sleepily: "Well mother, you go ahead. I come with pop."

"CALIFORNIA FIG SYRUP" IS CHILD'S LAXATIVE

Look at tongue! Remove poisons from stomach, liver and bowels.

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious fruity taste. Full directions for child's dose on each bottle. Give it without fear.

Mother! You must say "California."

—Adv.

Too often there is a sting back of honeyed words.

"Highgate." The word "Highgate" is derived from a gate erected over 400 years ago to receive tolls for the bishop of London. At one time all travelers who tarried at Highgate taverns were required to take an oath never to eat brown bread while they could get white.

To Drive Out Malaria. And Build Up The System. Take the Old Standard GROVE'S TASTELESS chill TONIC. You know what you are taking, as the formula is printed on every label, showing it is QUININE and IRON in tasteless form. The Quinine drives out the malaria, the Iron builds up the system. Price 60c.

Mahogany Trees. Mahogany trees do not grow in clusters, but are found scattered throughout forests and hidden in dense undergrowth.

## GERMAN PRISONERS OF WAR RETURNING

German convalescent and wounded prisoners of war embarking on a hospital ship at Dover, England, for Rotterdam.

## WATERSPOUT WRECKS HOUSE

Debris Strewn Along Connecticut Coast for Distance of Two Miles.

New York.—Reports came from Norwalk, Conn., of damage done by a cyclone and waterspout which passed along Long Island sound.

After severe thunder storms from the east and west met, a waterspout was seen to form about a half mile off shore at Roton Point. It was at least 100 feet high.

The spout traveled a mile and a half, then at Betts Island, Norwalk, it struck the forty-five foot launch Anna and lifted the cabin off, leaving the rest of the launch undamaged.

Eight men who had come from New York in the launch were in a house near the shore. The house was moved several feet off its foundations by the waterspout and the second floor and attic were carried away and smashed to pieces. The debris was strewn along the coast for two miles.

## Ten Million Are Coming

Europe Expects Greatest Exodus in History.

United States Warned to Take Steps to Guard Against Being Swamped.

London.—The greatest exodus in history is looked for as soon as Europe finds the necessary transportation facilities. Information gathered by the British government indicates 10,000,000 persons are eager to leave the continent. The situation is regarded as full of perils.

Britain, fully aware of all that this exodus will mean, will continue its immigration restrictions. A government official said:

"Britain cannot sustain any more than it has, and the emigrants will likely seek homes in the United States."

Officials here are inclined to warn the United States to take steps guarding against being swamped.

British officials hope some 2,000,000 Jews of eastern Europe will go to Palestine, but no one has any idea of how to sustain the rest of the would-be emigrants except by such aid as to make it possible for them to stay in their respective native countries.

Storage of food, lack of production, and unsettled political and social conditions are expected to last for a long time all over Europe. Passenger ships are booked months ahead, but there are not enough vessels for carrying even the most important and immediate traffic.

Italian provinces in which 70 per cent of the communes are without telephone service are authorized to issue bonds jointly with the communes to extend the wire facilities.
